## Work Experience

### Software Engineer @HubSpot

Dublin, Ireland - November 2021 - Present

- Backend engineer on the Global Data Privacy team; building tools to help customers remain fully compliant with data privacy laws.
- Built a customer data deletion API that enabled users to bulk erase customer data that would otherwise violate GDPR rules.
- Designed and implemented support for exporting all data held by HubSpot for a given contact.
- Planned the migration of all GDPR settings data to a segregated and single source of truth system.

## Skills

### Programming Languages

Java, JavaScript, TypeScript

### Libraries & Frameworks

Dropwizard, Spring Boot, Node.js, Express, Angular

### Tools

Apache Kafka, AWS, Docker, Git, Firebase

## Education

- Higher Diploma Science in Computing - Griffith College Dublin
